APMG-International AgilePM[®] Foundation & Practitioner Blended

ILX Group's accredited AgilePM Foundation and Practitioner Blended learning course contains all of the training and materials you need to attain both the Foundation and Practitioner qualifications in AgilePM. The blended learning will provide you with the knowledge and understanding of the scope, content and structure of the AgilePM method and fully prepare you for the AgilePM Foundation and Practitioner examinations.

You will begin by studying the highly interactive AgilePM Foundation e-learning and utilising the exam simulator which will give you a real-time opportunity to practice your exam technique.

Upon completion of your Foundation e-learning you will be able to arrange to take the examination online via web proctor. Once you have passed the Foundation element you will be able to arrange your Practitioner workshop which culminates on day four with the AgilePM Practitioner examination.

Important: The Foundation exam must be undertaken and passed online via remote web proctor prior to attending the four day Practitioner workshop.

WHAT'S INCLUDED

- ✓ 12 months online access to our accredited AgilePM Foundation learning
- ✓ AgilePM Foundation exam: Must be taken online via web proctor and pass confirmation received prior to attending your workshop (must be taken within 12 months of purchase).
- ✓ Four day AgilePM Practitioner workshop including AgilePM Practitioner exam (must be taken within 12 months of purchase)
- ✓ Full tutor support plus many additional materials to help put AgilePM into practice
- ✓ AgilePM Handbook

Target Audience

With a clear, concise and detailed perspective on project productivity, the AgilePM certification is useful to all candidates and competency levels ranging from highly experienced project managers to those new to the industry.

What will I learn?

- ✓ Explain how to lay the foundations for successful agile projects
- ✓ Explain how an agile project is managed
- ✓ Clarify the different management styles needed for successful agile projects (compared to "traditional" projects)
- ✓ Provide integration with PRINCE2[®]
- ✓ Fully prepare you for AgilePM Foundation and Practitioner examinations.

LEARNING SYNOPSIS

FOUNDATION EXAMINATION

Accreditation

The Foundation exam must be undertaken and passed online via remote web proctor prior to attending the four day Practitioner workshop. The exam format is as follows:

- ✓ Multiple choice format
- ✓ 50 questions per paper
- ✓ 25 marks required to pass (out of 50 available) - 50%
- ✓ 40 minutes duration
- ✓ Closed book

Benefits

An AgilePM Certification allows individuals to:

- ✓ Develop a more advanced, applied level of knowledge to gain an understanding of agile and the ability to apply relevant project management methods, leading to successful agile projects
- ✓ Clarify different management styles needed for successful agile projects compared to traditional projects and be able to tailor these to the situation
- ✓ Actively promote trust and close co-operation between the business and developers and gives the business ongoing visibility into what is happening
- ✓ Combine knowledge of more traditional management methodologies with agile to better adapt to a changing business environment
- ✓ Improve time-to-market and project success rates while simultaneously accelerating results by encouraging stakeholder involvement, feedback and effective controls.

PRACTITIONER EXAMINATION

Accreditation

The AgilePM Practitioner exam will be take place on the fourth day and follows the following format:

- ✓ Objective testing
- ✓ 4 questions per paper, 20 marks available per question 40 marks required to pass (out of 80 available) - 50%
- ✓ 2.5 hours duration
- ✓ Open book (restricted to the official manual only) examination

Benefits

An AgilePM Certification allows organisations to:

- ✓ Deliver change faster, at a lower cost and with lower risk by continually validating project milestones against business objectives
- ✓ Complement and work with existing corporate processes such as PRINCE2, quality and audit processes which improves rigour and visibility around project management, leading to a proven track record of successful delivery in a corporate environment
- ✓ Simply adopt a tried and tested approach rather than developing and integrating a company-specific agile management process
- ✓ Achieve better communication and control over projects and adapt project plans without disrupting the project budget, timescale and scope
- ✓ Develop professionalism in employees and include agile certification in employee professional development schemes.
