

M_o_R® Practitioner Re-Registration Blended

The M_o_R Manual is periodically revised and enhanced to reflect the latest Best Practices in Risk Management. As a result, in order to maintain the status of M_o_R Registered Practitioner, certificate holders must re-take a re-registration exam every 3–5 years.

This 1 hour examination ensures that Registered Practitioners are fully up to date with any revisions to the method and can evidence that their knowledge of the method is current. The blended learning will provide a comprehensive overview of the recent changes and developments in the M_o_R method together with comprehensive and up to date guidance on examination technique. The M_o_R Re-Registration workshop is based upon the publication: Management of Risk – Guidance for Practitioners which provides a Best Practice approach to the essential elements of Risk Management.

The workshop will provide delegates with a review of the principles, processes and techniques used in the M_o_R approach followed by a variety of objective test examination style questions based on a typical exam scenario. Candidates will take the M_o_R Practitioner Re-registration examination at the end of the workshop.
