# AgilePM® Foundation & Practitioner Classroom

Accredited by the APM Group, the five-day APMG-International AgilePM Foundation & Practitioner course aims to address the needs of those working in a project-focused environment who want to be agile.

Based on the proven fundamentals within DSDM – the only agile approach to focus on delivery of projects in a fully agile way – the certification lives up to its name by providing users of the method with the core principles needed to facilitate a successful project, whilst allowing a degree of scope and agility that not many other methodologies provide.

The workshop is divided into two modules, the first being the one day Foundation course which includes the Foundation examination on the afternoon of the first day, and a four-day Practitioner course which provides the opportunity for participants to take the Practitioner examination on the final day (subject to passing the Foundation examination).

## COURSE CONTENT

This course follows the syllabus set down by the APM Group, and will:

- ✓ Explain how to lay the foundations for successful agile projects
- ✓ Clarify the different management styles needed for successful agile projects (compared to 'traditional' projects)
- ✓ Explain how an agile project is managed
- ✓ Provide integration with PRINCE2®
- ✓ Fully prepare you for the Foundation & Practitioner examinations.

## DURATION

This is an intensive five-day course, leading to the Foundation examination on the afternoon of the first day and the Practitioner examination on the final day.

## ACCREDITATION

### Foundation Examination

- ✓ Multiple choice format
- ✓ 50 questions per paper 25 marks required to pass (out of 50 available) - 50%
- ✓ 40 minutes duration
- ✓ Closed book

### Practitioner Examination

- ✓ Objective testing
- ✓ 4 questions per paper, 20 marks available per question
- ✓ 40 marks required to pass (out of 80 available) - 50%
- ✓ 2.5 hours duration
- ✓ Open book (restricted to the official manual only) examination

Please note, to be eligible to take the Practitioner level examination candidates must already have one or more of the following: an AgilePM Foundation Certificate, a DSDM Atern Foundation Certificate or a DSDM Advanced Practitioner Certificate.

### Target Audience

With a clear, concise and detailed perspective on project productivity, the certification is useful to all candidates and competency levels ranging from highly experienced project managers to those new to the industry.
